

Date: 13/12/12.

My Father, Mr. Arjun H. Jauwal is a
2/c/o. Ca-Pancreas (Body & tail) since 7 years. Other than
wildly raised sugar levels he was asymptomatic till
2 year back when he started developing severe Paravertebral
& Abdominal pain gradually increasing in intensity
radiating all over the abdomen.

He had Increase threshold to tolerate pain
all his life but this pain was unbearable for him
for which we had tried all conventional Analgesics
known to us. Even after them the pain was so
intense that he had lost his appetite, sleep &
also to an extent his mobility. He also lost his
will to fight the Pain & disease & was going into
Depression.

So we consulted Dr. Priti Doshi for the
management of Pain & after detailed history she
suggested us a Brachial Block & we did the same.
Its been 4 1/2 mths now & the whole life has
changed for my dad. He is not on any analgesics
since the block & neither complaining of Pain.

His appetite has improved & so has his sleep.
He now goes for a walk every morning & has
gained 3Kg in last 4 mths. Most important is that
now (without Pain) he wants to live longer & is also
taking efforts to do so with a positive attitude.

All thanks to Dr. Priti Doshi, my dad is
a happy Jolly person once again.

Dr. Deepak Jauwal.
(S/o Mr. Arjun Jauwal).
